This business course focuses on the individual and their interactions with the commerce world. It teaches students how to manage their own finances (including mobile phones), and gives them experience in managing shares (by playing the online Australian Sharemarket Game).

Students also participate in the ‘Be Real Game’, where they role play real life issues related to housing, unemployment, savings and getting the balance right between work and leisure.

**AIM:**
Students studying BOW will:
- Be able to analyse and understand personal financial information
- Be able to manage a share portfolio
- Experience life issues associated with school and work to develop good career decision making skills

**DURATION:**
This is semester course.

**CONTENT:**
- Personal financial responsibilities (how to NOT get caught with mobile phone debt)
- Financial literacy - Personal budgets and savings
- Understanding Shares (how would you spend $50 000 on the Australian stock market? Play the Australian Sharemarket game to find out)
- Share analysis and report writing

The ‘Be Real Game’. Students are given individual career roles to play over a 6 week period. During this time they may experience inheritance, promotion, redundancy and other real life events as they learn how to cope with and plan for their future.

**SENIOR SUBJECTS IN THIS FACULTY:**
